to (1) remember your information so you do not have to re-enter it, (2) track and understand how you use and interact with our Sites, (3) tailor the Sites and our advertising around your preferences, (4) manage and measure the usability of the Sites, (5) understand the effectiveness of our content, (6) otherwise enhance the Sites and our beauty offerings, and (7) protect the security and integrity of our Sites.

Cookies:

These are the types of cookies we use on our website:

1. **Essential Cookies.** These cookies are essential for the website to function or provide access to features and functionality on the website. They are usually set in response to actions requesting services, such as setting your privacy preferences, logging in, or filling in forms. They also enable enhanced website functionality and personalization. These cookies (or similar technologies) are essential for the website to function, provide access to features and functionality on the website, and cannot be switched off. They are usually set in response to actions requesting services, such as setting your privacy preferences, logging in or filling in forms. These are also used in connection with website functionality, like web chat services, product recommendations, predictive sort, product search, and commenting and rating systems. Providers of these services may use their own analytics cookies (or similar technologies) to measure performance of these services. You may be able to use your browser's settings to block or alert you about these cookies, but some parts of the site may not work properly.
2. **Analytics Cookies.** These cookies (or similar technologies), including Google Analytics, allow us to count visits and traffic sources so we can measure and improve the performance of our site. They help us to know which pages are the most and least popular and see how visitors move around the site. We also have enabled Google Analytics Advertising Features to share information with Google about your use of this site to allow us to deliver relevant and personalized advertising or content to you on other sites. We have enabled the following Google Analytics Advertising Features: Remarketing with Google Analytics, Google Display Network Impression Reporting, Google Analytics Demographic and Interest Reporting, and integrated services that require Google Analytics to collect data for advertising purposes, including collecting data via marketing cookies and identifiers. You can learn more about how Google Analytics processes information here: [Google Analytics Terms of Use](#) and [Google Privacy Policy](#). For more information about marketing cookies, please see “**Interest-Based Advertising and Adchoices**”, below. For information on managing cookies, please see “**Choices**”, below.

Other Technologies:

1. **Device Identifiers:** We and our third-party service providers automatically may collect an IP address, mobile advertising identifier, or other unique identifier information ("Device Identifier") for the computer, mobile device, technology or other device (collectively, "Device") you use to access the Sites or on third party websites that publish our advertising. A Device Identifier is a number that is automatically assigned to your Device when you access a web site or its servers, and our computers identify your Device by its Device Identifier. For mobile devices, a Device Identifier is a unique string of numbers and letters stored on your mobile device that identifies it. We may use a Device Identifier to, among other things, administer the Sites, help diagnose problems with our servers, analyze trends, track users' web page movements, help identify you and your shopping cart, deliver advertising and gather broad demographic information. Most mobile devices will allow you to turn off sharing or reset a Device Identifier.

as store locators, local weather, promotional offers and other personalized content. Push notifications can include discounts, reminders or details about local events or promotions. Most mobile devices allow you to turn off location services or push notifications. If you consent to location services, we will collect information about the Wi-fi routers closest to you and the cell IDs of the towers closest to you to provide location-based content and services.

3. **In-Store Analytics:** We may use certain in-store wireless services (such as Wi-Fi networks and Bluetooth beacons) to automatically collect information about visitors to our stores. Our Wi-Fi routers capture certain data from mobile devices that interact with the router, including information about your mobile device (such as a MAC Address and signal strength data). Bluetooth beacons are small devices that broadcast a Bluetooth signal to map nearby Bluetooth-enabled mobile devices. We may use the data collected from these in-stores wireless services to provide operational insights such as foot traffic volumes and how customers move through our stores.
4. **Pixels:** In some of our email messages, we use click through URLs that will bring you to content on our sites. We also use pixel tags to understand whether our emails are read or opened. We use learning from this information to improve our messages, reduce frequency of messages to you or determine interest in content we share.

This might be de-identified information about purchasing patterns, location of shoppers and sites that are of interest to our consumers. We also collect information about users who share common interests or attributes (e.g. color treated hair) to create user “segments,” which help us to better understand and market to our customers. We may use your data as part of health-related segments about non-sensitive conditions such as dry skin.

Social Platforms. You also can engage with our brands, use chat or try-it-on features, applications, log into our sites via social media platforms, such as Facebook (including Instagram) or Google. We will retain your Personal Information for as long as your account is active or as needed to provide you services and as necessary to comply with our legal obligations, resolve disputes, and enforce our agreements. If you wish to cancel your L'Oreal ACCESS account or request that we no longer use your Personal Information to provide you services, contact us via one of the methods listed in Contact Us located at the end of this Privacy Notice. COOKIES; INTEREST-BASED ADVERTISING AND ADCHOICES

If you would prefer not to accept cookies, you can manage your cookie preferences by clicking on the "Cookie Settings" button located on the bottom of the website homepage. You cannot disable essential cookies. We use certain analytics services, such as Google Analytics, to gather information about our site visits or mobile app usage. To learn more about Google Analytics, including opting out of Google Analytics, click [here](#).

You can also change your browser settings to notify you when you receive a cookie, which lets you choose whether or not to accept it; or set your browser to automatically reject any cookies. However, please be aware that some features and services on our Sites may not work properly because we may not be able to recognize and associate you with your account. In addition, the offers we provide when you visit us may not be as relevant to you or tailored to your interests. To learn more about cookies, please visit <http://www.allaboutcookies.org>.

We use third party companies to serve advertisements, measure the performance and engagement with our ads, provide analytic, preference, and interest information. In some instances, these ad network providers, social platforms, sponsors, and/or analytics service providers may use their own tracking technology to capture information about your device, use and engagement online.

We may recognize your information across different devices that you use or log in from (i.e. computers or mobile devices.) We may recognize that one cookie ID (i.e. from a computer) may be connected to another device (i.e. smart phone) by the device ID or log in. This may result in you searching for one of our products on one device but seeing an ad later for that product on another device. By knowing what devices are being used by a person or household helps us limit the number of times you may see the same ad across different devices. We may also combine information we collect from your devices with other information we have about you, such as your account information, services, transaction history, and interaction with our sites.

You can opt out of receiving targeted advertising through the [Network Advertising Initiative \(NAI\) Opt-Out Page](#). Options are Device-specific, so if you use multiple Devices, you should opt out on each one. You can also opt out of certain targeted advertising programs by clicking on the [AdChoices](#) icon that appears on our Site footers and may appear on our advertising. Even if you opt-out of targeted advertising, you may still see our advertisements while you are browsing, but they may not be targeted to you based on your interests.

Some social networks (i.e. Facebook), allow you to exercise ad choices, limit data collection and clear your history on that platform as well. For your convenience we have provided the links to some of the social networks:
